Excel Eco Enhanced GOP Boxes

Part Number	Description
350-639-NPL	2 Way Plastic GOP Box (25mm)
350-640-PL	4 Way Plastic GOP Box (25/32mm, adaptor included)
350-642-PL	6 Way Enhanced Plastic GOP Box (32mm)

The newly enhanced range of Plastic GOP (Grid Outlet Position) Boxes provide a modern, sustainable and installer friendly evolution of the existing metal GOP series. Manufactured from over 80% recycled plastic, the new design delivers impressive strength and reliable impact resistance, achieving an IK06 rating. Each unit is engineered to withstand the demands of raised floor environments, offering improved durability, cleaner and faster installation, simplified handling, and a high quality professional finish.

Highlights:

- Lighter, stronger construction using over 80% recycled plastic
- Improved durability with a clean, modern IK06 rated finish
- Simplified installation for faster, easier deployment
- Environmentally conscious design aligned with Excel sustainability goals
- Toolless clip shut mechanism - no screws required
- Integrated ID window for clear labelling
- Built in conduit thread for secure connection
- 25/32mm adaptor included with the 4-way model
- Angled LJ6C presentation for improved cable management
- Chamfered base design for furniture channel installation
- Pre-installed knockout blanks on selected apertures

Excel Cat6a Screened Mini Field Installation

Part Number	Description
100-940-06	Excel Cat6a Screened Mini Field Installation

The new 100-940-06 has now superseded the previous 100-140(-06) model providing greater versatility and improved compatibility with a wider range of cable constructions.

This change reflects important specification enhancements:

- The new design supports larger cable diameters (up to 9.2 mm)
- Supports thicker conductors (22 AWG)
- Offers a shorter and more compact form factor for easier installation in space-constrained environments.
- Supplied in a six pack
- Fully compliant ISO/IEC 11801, Cat6A and ANSI/TIA-568-C.2 standards

Excel Copper and Fibre Solutions

Excel ExpressNet 8-Module Unloaded Modular Panel 1U Silver with Cable Management

Part Number	Description
100-231-CBM	Excel ExpressNet 8-Module Unloaded Modular Panel 1U Silver with Cable Management

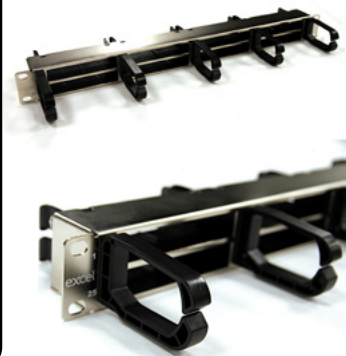

The Excel ExpressNet 100-231-CBM panel accepts either and/or both copper and fibre modules and now includes cable management. The ability to have fibre and copper presented in one panel offers flexibility in the installation, reduces required rack space and provides future proofing in system design.

Useful in the extremes of installations from data centres where the ExpressNet panel may aid separation of the routes of cabling, to a remote wall box that has a small number of fibre and copper links, the ExpressNet panel will suit any environment.

The construction of the panel has a chrome colour finish and may be used for either screened or unshielded copper cabling and LC or MTP fibre connectivity and now includes clip in cable management rings.

Highlights:

- Now comes with cable management
- Accepts copper & fibre ExpressNet modules
- 1U of rack space
- Toolless assembly and module fitting

Environ Racks

Environ ER/CR Anti-Tilt Brackets

Part Number	Description
542-506-BK	Environ ER/CR Anti-Tilt Bracket (Racks without Feet) Black- 4 pack
542-508-BK	Environ ER/CR Anti-Tilt Bracket (Racks with Feet) Black- 4 pack

Where you have an Environ ER or CR rack that needs to be secured to the floor, our anti-tilt brackets are the perfect solution to secure the rack in place.

Two options are available to suit racks that don't have any feet or castors fitted (542-506-BK) or that those that have jacking feet in place (542-508-BK).

Each kit includes the required fixing screws and can be installed into pre-drilled holes in the rack.

A simple bracket that guarantees a secure installation.
